STOCKS MAKE FURTHER GAINS ON BETTER MONEY OUTLOOK.

STRICTLY LESS SEVERE THAN ON PRECEDING DAY. Heavy Resort Made to Other Money Centers to Take Over Credits Forced to Settlement.

New York, Nov. 15.—Stocks made further recovery today under the influence of reports of confidence in the money market. There was continued activity in the money market, but it was less active than yesterday's. The market was less active than yesterday's.

COMMERCE STOCK STRONG POINT IN LOCAL TRADING.

ADVANCE OF \$2.25 PER SHARE SCORED. Traction Fairs Active and in Demand—Prices Generally Steady to Higher.

Local securities were somewhat more active in yesterday's session of the St. Louis Exchange than was the case in the earlier days of the week. Prices generally were firm, and in several instances advances were scored. More interest was taken in local and there was a good inquiry for traction stocks.

WHEAT AND CORN CLOSE LOWER IN LOCAL MARKET.

TRADING LIGHT AND FEATURELESS. Lower Cables and Bearish Argentine Influencing Factors—Oats Easier.

Wheat values were slightly lower in yesterday's local grain market, but trading was very light and the session developed into a featureless one. Cables were rather disappointing, and news from Argentina state that the country did not report a poor floor demand both for export and domestic consumption.

SUMMARY OF ST. LOUIS MARKETS

Wheat was a trifle lower in yesterday's local grain market, but the range was so narrow and trading so dull that it was a difficult matter to determine what the sentiment really was. Locally the opening was firm, but a little lower in sympathy with Chicago and other domestic markets.
